

DISASTER AWARENESS NEWS

Last year saw the state subject to Social Distancing, mask, and limited face to face meeting. The last part of the year saw Hurricane and severe storms across the Southeast. The end of last year we saw Brother Knight step to help the needy, not only here in the Great State of Alabama. We saw Knights from one state, volunteering to go to another state to answer the call of Brother Knights from other state who were in great need. The Supreme Office of the Knights of Columbus also helped with money and resource when they were asked. This year has started off with a bang, with no end in sight. The first three months of the year has seen the state being rocked with several tornadoes, ripping across the norther part of the state. If that was enough, this year's hurricane season is projected to be highly active, with the start date be moved two weeks earlier. Hang for a bumpy ride. Please rememberIf not You.....Then Who? and If not now....When?

There are free, self-paced courses available from FEMA and Ready.com

You can also find out about the C.E.R.T. teams in Your counties by contacting your counties' EMA Office.
